

TASK. SCAN. DONE.

Checklists that **prove** themselves.

Put any checklist on a QR code, NFC tag or text.
Whoever scans it knows what to do. Proof
comes back on its own.

- 1 Build the list**
Type it, use a template, or let AI draft it.
- 2 The crew scans it**
QR, NFC, text or email, in their language.
- 3 Watch it get done**
Photos, GPS and time stamps, live.

Everything a job needs to be provably done

People on the job never pay.

 Photo + GPS proof Photo, place and time.	 Self-fixing issues AI finds and sends the fix.	 Geofenced zones PPE gates, entry alerts.
